RESULTS 2023

International Baccalaureate: students achieved excellent results. Bromsgrove School's IB average is **38.0** points with the UK average at 34.67 and we surpass the global average of 30.24 points. One boarder scored a spectacular and much coveted top score of 45 points – one of only twenty-five students in the UK. A third of the total cohort gained 40 or more points (equivalent to 4 A*s at A level).

A level and BTEC results saw all students passing their A Levels with an A*- C rate at 90% was amongst the very highest proportion that we have ever seen at Bromsgrove. Three quarters of all grades awarded were A* to B.

When combined, this Upper Sixth cohort of 210 student leavers took 681 'main' subject qualifications - almost a quarter of all qualifications were graded A* or equivalent and over half achieved at least an A grade.

These fantastic results enabled 90% of our Upper Sixth leavers to go on to their chosen university, mostly in the UK but also to some prestigious institutions abroad. Students have accepted places at every single one of the 24 Russell Group universities. When including international universities, we have had offers from 11 of the World Top 50 universities, and 5 of the World Top 10. 11% of students are going to World Top 50 universities, with highlights including students heading to Columbia University (Ivy League), Toronto, McGill, Oxford and Cambridge, LSE, Imperial and UCL.

Headmaster Michael Punt commented, "The students achieving these results will justifiably be delighted by the grades they have worked for. There are many individual successes, however, I could not be more proud of all their achievements; as examination year groups they overcame many challenges, and did so with

great courage and resilience. And all this with a back-drop of superb extra-curricular achievements. My congratulations to all pupils.”
